

WASTE MINIMIZATION CIRCLE

Waste minimization in small scale industries

CLEANER PRODUCTION CASE STUDY IN RICE MILLS

Name of Industry: Rice mills in Nizamabad district of Andhra Pradesh

Place: Nizamabad district of Andhra Pradesh, India

Study of focus area: Means to reduce energy consumption

Website: wmc.nic.in

Source of the case study: <http://wmc.nic.in/case-studies2.asp>

The screenshot displays the website interface for the Waste Minimisation Circle. At the top, there is a navigation bar with the organization's name and logo, and a menu with links for HOME, ABOUT WMC, PORTER GALLERY, WORKS, and CONTACT. Below the navigation bar is a search box and a sidebar with various menu items such as Home Letters, Case Studies, and Training Package. The main content area is titled "CASE-STUDIES" and features a dropdown menu for "INDUSTRIAL SECTOR". The selected case study is "WASTE MINIMISATION CIRCLE CASE STUDY IN RICE MILLS". The content is organized into sections: 1. INTRODUCTION TO THE SECTOR, 2. ABOUT THE CIRCLE, 3. PROCESS DESCRIPTION, 4. STUDY FOCUS AREA, 5. WASTE MINIMISATION OPPORTUNITIES THAT REDUCED ENVIRONMENTAL LOAD AND ACCRUED ECONOMIC BENEFITS, and 6. POLLUTION STATUS BEFORE AND AFTER CP IMPLEMENTATION. The text under "1. INTRODUCTION TO THE SECTOR" describes the importance of rice in India and the agricultural practices in the region. The text under "2. ABOUT THE CIRCLE" describes the formation of a waste minimization circle in Nizamabad district of Andhra Pradesh, aimed at reducing energy and water consumption through sharing knowledge and information.
